1. Description of the Project

This program will lead to the development of a device whereby the likeness of an individual may be reproduced at a remote location from the user's memory or interrogation of another person.

2. Purpose of the Project

The purpose of the requested task is to make minor modifications and improvements in the identification kit developed under Research Order 5 of Contract RD-77 with the subject contractor. This kit has been used operationally and several persons have been formally trained in its use, thus, considerable experience has been gained and a need for these minor changes has been indicated. These are: (1) addition of several new facial characteristics, (2) provide a more operationally suitable carrying case, and (3) improve the quality and layout of the instruction handbooks.

3. Recommended Contractor

The recommended contractor for this program is [redacted]
[redacted] They performed the previous work on
this project in a very satisfactory manner.
